

Printable Tying Instructions for the Spicy Crab:

Materials Needed:

Hook: Size 4-10 Daiichi Streamer or Wet Fly Hook

Antennae: Olive Deer Hair

Claws: Copper UV Polar Chennile

Hackle: Copper UV Polar Chennile

Body: Olive Ice Dub

Eyes: Dumbell eyes, size of your choice

Tying Instructions:

1. After putting hook in vice, coat the hook with heavy thread and wind forward to the eye of the hook. At that point, tie in the dumbell eyes.
2. Wind the thread back to the bend of the hook. Tie in the olive deer hair in a clump for antennae.
3. Tie two pieces of Copper Polar Chennile to either side of the antennae. They should be approximately 3/4" in length.
4. Tie in a longer piece of Polar Chennile.
5. Dub a body of Olive Ice Dub
6. Palmer the Polar Chennile through the body to the eye of the hook.
7. Finish the fly.

Comments: This fly catches smallmouth and trout. Don't hesitate to tie it in a gold and yellow combinations as well.
